EVENT DESCRIPTION

STAIR CLIMB - The first event is the high- rise pack carry. The 100' 1.75 inch hose may be carried in any manner, but must be placed in the container on the top floor of the tower (equiv. to a five-story building). The hand rails may be used and steps may be taken in multiples on the way up, but every step must be contacted and both handrails grasped when descending the tower.

2. **HOSE HOIST** — A 45lb donut roll of LDH hose and 5/8” rope are used for this event. The evolution is complete when the roll clears the railing of the top of the tower and is placed in the container.

3. **FORCIBLE ENTRY** - The evolution utilizes the Keiser Force Machine. Using a 9 lb shot mallet, the participant must drive the 165 lb steel beam a horizontal distance of 5ft.

4. **HOSE ADVANCE** — After advancing a 140ft, the participant must pick up the nozzle of the 1.75” charged hose line and drag it a distance of 75ft, open the nozzle, hit the target with the water stream, shut down the nozzle and places the nozzle down. If the nozzle is not shut before it is placed down, the participant must go back and close it.

5. **VICTIM RESCUE** - A 175lb Rescue Randy mannequin must be dragged backwards a distance of 100 ft. Carrying the dummy is not permitted. Time stops when **the participants and victim completely cross the finish line.**

6. **TAG TEAM EVENT** — Includes items 1-5, consisting of 5 person teams, each member of the team responsible for one of the above events.
